

Installation Instructions

9334/9335 Towel Ring

IMPORTANT: Notches on the ring and escutcheon must be correctly aligned for a successful installation. Refer to the illustration below when installing the towel ring.

1. Hold the ring straight out, perpendicular to the escutcheon as shown. Align the two notches on each side of the ring with the two key slots on each side of the escutcheon. Center the ring (through the slots) on the escutcheon.
2. Drop the ring down 90° and the ring will lock into place.
3. Secure the mounting bracket to the wall with the screws provided.
4. With the set screw at the bottom, align the top end of the escutcheon to the top of the mounting bracket. Gently push the escutcheon plate down into position and tighten the concealed set screw to lock the unit into place.
